United States Bankruptcy Court
One Bowling Green
New York, NY 10004

Attn: Honorable Judge Robert D. Drain

Ref: Delphi Corp Case # 05-44481 filed October 8, 2005
Document # 14705 to Cancel OPEB (Health Insurance Benefits) for all
Retirees

Dear Judge Drain:

This letter is to express my concerns with Document #14705 filed by Delphi Corporation on February 4, 2009 asking the court to cancel health insurance benefits (OPEB) for over 15,000 people who are retirees of Delphi Corporation.

Please note that this letter is an **OBJECTION to that document and file it as a motion to object to document #14705.**

This document was filed with no previous warning to any of the current employees and retirees of Delphi Corporation and was only made known to us via letter on February 5, 2009 and gave us a mere twelve days to file our objections.

Many of the most recent retirees of Delphi were retired **BY** the company and **NOT** by the choice of the employee. They were given no decision to make, just told they would be retiring on a specific date. They had little time to prepare for retirement, and little time to adjust to a significantly reduced income before they were hit with this latest development (loss of health care) which will cause financial hardship for every retiree. It will have huge impacts not only on the retirees and soon-to-retire, but also every community where retirees live.

With the current state of the economy, retirees who had saved for retirement in their Stock Savings Plans, have lost 40 – 60 % of their savings. As you know, the cost of living has increased significantly in the last two years based upon rising energy costs alone. This coupled with the loss of health care benefits would have a crippling effect on the lives of every retiree of Delphi Corporation.

It is my belief that there are other ways to restructure the company and still retain health care for retirees. Health care benefits are currently scheduled to stop at the age of 65 for all retirees. This cost is a decreasing cost to the company as each of us reaches that 65 age milestone.

When Delphi made the decision to stop benefits at age 65 for retirees they proposed that these employees would be given an account of \$20,000 or \$10,000 depending on hire date to help in the transition to Medicare & to be used for "gap insurance" or other uncovered medical expenses. Now this new proposal will negate their previous proposal which they offered. In addition the permanent paid up life insurance policy should not be cancelled as upon retirement we were told we would always have this. In my case the loss of the medical account and life insurance will affect me and my family around \$92,000. This is in addition to the losses incurred in the employee stock plan and stock options which we received in stead of raises and which are worthless.

Please know that each of the 15,000 plus retirees and soon-to-retire, who will be negatively impacted by this action, will be looking to you for your consideration when making the decision concerning Document #14705 dated February 4, 2009.

We ask you to REJECT this motion.

Sincerely yours,
